High Performance Coatings and Foam

April 23, 2007

Bulletin No. 75-D07

## **NXT™ the New Standard in Airless Sprayer Technology**

Dear Distribution Partner,

The new NXT air motor was introduced on the Xtreme® airless sprayers earlier this year. Since then, it has been offered in conjunction with the King and Bulldog versions so that all end-users would have ample time to become aware of this new product.

Thanks to your efforts, Xtreme NXT sprayers have already become widely accepted as the new standard in airless sprayer technology. Due to this acceptance, Graco will no longer offer King and Bulldog Xtreme sprayers and pumps as of June 30, 2007. All orders placed up to that date will be honored and shipped in a timely manner; orders will not be accepted after that date.

We will continue to offer bare air motors and all repair parts for many years to come. A list of packages that will be discontinued as of June 30, 2007 and a recommended replacement featuring the new NXT air motor is attached to this bulletin for your reference.

For pricing information, please contact your Graco Customer Service Representative. Additional printed brochures and line cards are available through GEDI; electronic .pdf files are available at [www.graco.com](http://www.graco.com).

Best regards,

A handwritten signature in black ink, appearing to read 'Matt Kahle', written in a cursive style.
